Profile Summary

Computer Engineering student with hands-on experience in Python, C++, DBMS, and Web Development. Developed academic projects using MySQL, OOP, and Data Structures. Passionate about software development and eager to apply and enhance technical skills through real-world projects.

TECHNICAL SKILLS

Programming Languages
C, C++, Python, Java

Web Developement
HTML, CSS, JavaScript, PHP

Core Concepts
Data Structures & Algorithms, Object-Oriented Programming, DBMS

Database
MySQL, MongoDB

Tools
Git, GitHub, VS Code

Education

B.E. Computer Engineering, *Sinhgad Institute of Technology and Science, Pune* 2024 – 2028
CGPA: 8.54 Pune, Maharashtra

Higher Secondary Education, *Ashok Vidyalay & Jr. College* 2024
Percentage: 64.17

Secondary School Certificate, *Sona 'I' English Medium School* 2022
Percentage: 92.20

Projects

Student Management System, *Python, Tkinter, MySQL*
- Developed a Student Management System using Python, Tkinter, and MySQL for managing academic records.
- Implemented CRUD operations for student details, attendance tracking, and subject-wise marks management.
- Integrated MySQL database with Tkinter GUI for efficient data storage and user-friendly interaction.
- Added secure admin login authentication for authorized access and record management.

Banking System Mini Project, *C++ , Object-Oriented Programming*
- Developed a Banking System mini project in C++ using Object-Oriented Programming concepts.
- Implemented banking functionalities including account creation, deposit, withdrawal, and balance inquiry.
- Applied OOP principles such as Classes, Objects, Encapsulation, and Abstraction in project development.
- Designed a menu-driven console application to simulate real-world banking operations.

Palindrome Checker using Stack and Queue, *C++*
- Developed a palindrome checker program in C++ using Stack and Queue data structures.
- Implemented LIFO and FIFO operations to compare characters for palindrome verification.
- Applied string handling and data structure concepts for efficient program execution.
- Improved understanding of Data Structures, Algorithms, and problem-solving techniques through implementation.
